Alexandru Pop, Frontend Developer

I don't have a technical background, but I'm passionate about Web Development, to be more precise I'm aiming to become a Front-end Developer. I believe that to succeed you need to use 3 ingredients: passion, hard work and dedication. To make my dream come true, I took some online courses and I have learned HTML and CSS, and right now I am learning Java Script. For practice I am taking challenges from frontendmentor.ro .
